Relaxation is the best indulgence when you're giving birth!

Stork Tunes: Songs for a Happy Birth Day is a CD celebrating motherhood with calming, inspirational musical compositions focused on mothers and babies, by artists including Celine Dion, Dixie Chicks, Katrina Carlson, Norah Jones and Billy Joel. Originally conceived to help mothers relax during labor and designed to help fulfill the March of Dimes' mission of improving the health of babies, Stork Tunes has resulted in music that all moms will love.

According to the March of Dimes, studies show that music can ease the pain of labor—and pregnant women and medical professionals across the country are increasingly embracing this notion. The soothing musical arrangements that make up Stork Tunes were each selected with the intent of helping women prepare for the birth of their babies, relax during the labor and birth, and enjoy with their babies as they grow.

Stork Tunes is available for purchase for \$15.99 plus shipping. All net proceeds from the sale of Stork Tunes (minimum of \$5 per CD) go directly to the March of Dimes. StorkTunes.com
