Sure, you love the fine restaurants and big pools at the fancy chain resorts. But sometimes you crave a personal getaway available only at a small inn, bed and breakfast, or boutique hotel.

How can you find these hidden gems? How can you make sure you've picked the right one? [BnBfinder.com](http://BnBfinder.com) makes it easy. The online directory lists thousands of B&Bs, one-of-a-kind inns, and boutique hotels. Even better: Many offer military and senior discounts.

Use the advanced search feature and choose the city and state you'd like to visit. Indicate whether you want a children-friendly, pet-friendly, or adult-only establishment, and whether you want smoking or nonsmoking accommodations.

Click "Accommodation Type" to select a lake-view lodge, Queen Victorian mansion, Wine Country villa, or even a lighthouse. You have 30 choices, from working farm to family resort, cabin to country inn. Select as many options as you like, then click "Save & Close" in the top right.

Click "Amenities" if there are certain features you must have, —such as a TV, fireplace, or hot tub in your room. The "Activities" and "Attractions" links offers more choices.

When you've finished customizing your getaway, click "Discounts." Check all that apply, including "Military Discounts" and "Senior Citizen."

Click "Search" and voila! A list of properties will appear. Each establishment is individually owned, so rates will vary; contact the proprietor for specifics on the military discount or other information.

If you have questions about using the web site, call (888) 469-6663.
